PROFESSIONAL SUMMARY

Expert in digital marketing and client management with a proven track record of skill in Meta ads, Google Ads, social media, Canva, AI prompting, content creation, and Vibe coding. Proficient in building websites and landing pages for clients, managing social media pages, developing organic growth strategies, and producing content. Well-versed in SEO, e-commerce websites, web testing, and AI-driven creative tools

WORK EXPERIENCE

Digital Marketing Manager— PN Global Enterprises | Chennai, India, present

- Handled client communications and requirement discussions to develop practical experience in terms of client handling, professional communication, and understanding business requirements.
- Gained practical exposure to the field of Digital Marketing through hands-on experience with Meta Ads and Google Ads. This included learning about campaign creation, audience targeting, lead generation, and basic performance analytics.
- Managed 4-5 social media pages, involved in content publishing, and engagement activities while also focusing on organic growth in terms of followers count.
- Able to improve the social media audience quality by removing inactive and bot followers and focusing on creating an authentic and real audience.
- Designed social media posters and marketing creatives with the help of Canva, along with developing content ideas and marketing creatives using AI prompting and AI-based tools.
- Explored AI tools related to content design, image editing, and video creation and used them for social media and digital marketing-related tasks.
- Developed an understanding of Search Engine Optimisation (SEO) fundamentals like keywords research and content optimisation.
- Gained practical exposure to e-commerce website handling and testing, as well as working on day-to-day operations and processes involved with a live e-commerce website.

PROJECTS

Cosmetics E-Commerce Website

- Collaborated on gathering and documenting the business requirements which eventually formed the foundation of a live cosmetics e-commerce website with User and Admin modules.
- Conducted various tests, including functional tests, superficial tests, and validation checks of the implemented processes and functions to ensure they met the expected standards.
- Participated in managing the Meta Ads campaign, marketing, and digital promotion of the project, as well as transition from development and testing to the production environment.

Gravity BrReal Estate Property Agency

- Supported website development, functional testing, and workflow validation.
- Executed Meta Ads campaigns to drive traffic and generate leads.
- Assisted with implementation, issue identification, and feature validation before and after launch..

Social Media Content Strategy

- Built a content calendar for Instagram and Facebook featuring Reels and short-form video content.
- Designed brand creatives in Canva and applied creative copywriting to strengthen brand voice.
- Grew audience engagement and brand awareness through consistent, data-informed content planning.
